

Connected Controls

CONTROL YOUR COMFORT AND EFFICIENCY
FROM WHEREVER LIFE TAKES YOU.

American Standard[®]
HEATING & AIR CONDITIONING

It's like taking your home with you.

Connect your home to American Standard Heating & Air Conditioning and Nexia™ and get energy management control from wherever you are, right at your fingertips.

Ideal comfort and control.

With American Standard's innovative AccuLink™ Platinum 1050 or 850, Gold 824 and Silver 624 Controls, you can set your home to your ideal temperature from most web-enabled devices, like your smartphone.

Silver 624 Control

With upgradable software, humidity sensor, filter service and maintenance reminder alerts, this control allows you to manage your home comfort from anywhere with the most up-to-date tools available.**

- Nexia compatible*
- 4.3" LCD touchscreen
- Create up to four daily heating and cooling schedules
- Dehumidification setting in cooling
- Whole home humidifier control in heating
- Upgradable software
- Screen lock out and guest lock out
- Energy Savings Mode (ESM)

Gold 824 Control

Reduce your heating and cooling system's energy consumption with any internet-enabled smartphone, tablet or computer from anywhere in the world, and thanks to the built-in Nexia™ Bridge, you can remotely control your home too!**

- Built-in Nexia Bridge
- 4.3" color touchscreen
- Create up to six daily heating and cooling schedules
- Indoor relative humidity display
- Installation and User Setup Wizards
- Upgradable software
- Wi-Fi or Ethernet connection
- 5-day weather forecast alerts and radar**

Every control includes Nexia Remote Climate Access!

With Nexia™, homeowners can remotely control their home's temperature to suit their lifestyle and reduce their energy consumption while away.** Nexia helps you stay connected with your home and family, even when you're not at home.

* Nexia Bridge required

** Requires internet service and connection to Nexia™

Come home to your ideal home environment with Nexia.™

- Easily change the temperature before you arrive or if you forgot to set it before you left.
- Reduce costs by setting up a schedule or putting your comfort system into an energy savings mode when you're away.
- Enjoy the convenience and security of text and email alerts.

AccuLink™ Platinum 850 Control

Control your AccuLink™ communicating system's energy consumption from anywhere in the world with any internet-enabled smartphone, tablet or computer. Remotely control your home too, thanks to the built-in Nexia Bridge.**

- Built-in Nexia Bridge
- Wi-Fi or Ethernet connection
- Compatible with AccuLink™ Communication and AccuComfort™ Variable Speed Systems
- 4.3" touchscreen
- 5-day weather forecast and weather radar**
- Create up to six daily heating and cooling schedules
- Indoor relative humidity display
- Installation and User Setup Wizards
- Upgradable software

AccuLink™ Platinum 1050 Control

The Platinum 1050 will change your perception of controls forever, giving you a home management tool for remotely controlling the comfort of your home. It's easily accessible from a smartphone, tablet or computer, and the built-in Nexia Bridge offers a home automation hub. All of which makes adjusting the temperature for your home and family's comfort a breeze.**

- Built-in Nexia Bridge
- Control over 200 z-wave home automation devices
- Wi-Fi or Ethernet connection
- Compatible with AccuLink™ Communication and AccuComfort™ Variable Speed Systems
- Zoning capable
- 7" color touchscreen
- 5-day weather forecast, alerts, and radar**
- Create up to four daily heating and cooling schedules
- Built-in humidity sensor
- Upgradable software
- Maintenance and filter service reminder alerts

Our dealers will put you in your comfort zone.

Your independent American Standard Heating & Air Conditioning dealer is a highly trained professional with years of experience who'll work with you every step of the way in choosing the system that's right for you – from walking you through the entire purchasing process to conducting an in-depth analysis of your home and your comfort needs. Based on that information, your dealer will recommend a system that works best for your home. After all, the more efficient the system, the more comfortable you'll be.

What you need to get connected with Nexia.™

- An active broadband internet service and a Gold 824, Platinum 850 or 1050 control with built in Nexia Bridge.
- A valid email address.
- For mobile accessibility, an iOS, Android or Windows Phone smartphone or tablet with an internet data plan and an SMS (text messaging) plan.
- The Silver 624 requires an accessory Nexia Bridge, purchased separately, and connected to your router.

Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

A connected home that can grow with your lifestyle.

Whenever you want to grow your home's connections, Nexia™ can offer you a way. Ask your Independent American Standard Heating & Air Conditioning dealer for details.
